Thanks Pam.

I wrapped up a bunch on this project today, so here is a summary:

I concurred with the UDOGM determinations of eligibility and adverse effect. The signature sheet will go in the mail.

I concurred with the BLM determinations of eligibility and adverse effect for the parcel they did.

I concurred with the BLM's revised determinations of eligibility for the other, 91 site, parcel. Matt Z. has an email with his revisions, I recommended that he forward them to MOAC so they can compile a final list of eligible sites. I also concurred with adverse effect.

Per the plan, then, we will move forward on resolving the Adverse Effect in a comprehensive manner via the CRMP and the MOA.

Thanks to everyone for their efforts on this project.

Matt

Hi, all!

Thanks again to all of you for an excellent field trip and meeting this week on this project.

Here are the draft meeting notes. Please send me your edits/comments by November 6. If you can't do it by then, please let me know.

Lori - I looked for the forms again and couldn't find them..... Keith and Patricia - would you please reproduce them? Thank you!

Pam
